ANOTHER ROAD FOR SALT LAKE

Colorado & Northwestern to be Extended Into Utah.

ANNOUNCEMENT BY MANN.

Securities of the Road Have Been Floated and Construction is to Commence at an Early Date.

Denver, Aug. 31.-The News today says: The Colorado and Northwestern Railway is to be extended to Salt Lake City. The announcement is made by Thomas H. Mann, who has just returned from Chicago, where he was called on Monday last by Col. S. B. Dick, one of the projectors and build-ers of the Colorado and Northwestern and who recently gained control of the stock of that road.

Denver, Aug. 20 .- Announcement was made today that the securities of the Denver & Northwestern Railway company have been floated and construc-tion of the line between Denver and Boulder will begin at once

POSTAL IS COMING. Telegraph System May Cover All the Harriman Lines.

Upon the result of a conference held at Union Pacific headquarters last Sat-urday depends the fate of the telegraph lines which the Postal Telegraph-Cable company desires to build from Omaha

General Counsel McIntosh of the tele graph-Cable company was, at head-quarters to make application for permission to use the Overland's right of way for the new line. He conferred with General Solicitor Kelly, but did not see President Burt, as he was out of the city.

It is understood, of course, that the

Union Pacific will refuse to grant the permission. It will be compelled to do so by reason of its ironclad contract with the Western Union Telegraph company, even though the Union Pacific is favorably disposed toward the Postal

When permission is formally refused as it will be at no distant date, the Postal's attorneys will bring suit in the Federal courts to compel the Union Pacific to grant its request for the use of the right of way. Then a long legal battle will follow, during which the Western Union will exhaust every resource of the law to prevent the Postal from getting what it wants. It is not expected that the Union Pacific will make more than a perfunctory resist-ance in court, as it is the desire of the controlling interests to have the Postal on their lines, as well as the Western Union.—Omaha Bee.

Westbound Trains on Rio Grande Western Indefinitely Delayed. "Delayed indefinitely," is the legend

that appears on the time board of the Rio Grande Western today. This applies to westbound trains. From advices from Green River and Grand Junction it is stated that the section of country for miles east and night visited by one of the worst storms that has been experienced for years. Especially does this hold good on the Denver & Rio Grande, so much so that no trains have arrived at Grand June The sub-tropical storms are said to have embraced waterspouts, cloudbursts and a general downpour. As a result a quantity of that famous scener en washed down on to the track at different points. Four "dead" gines were this morning hauled into Green River. A large force of men has been dispatched to the scene and it is expected that trains will be running al-

LAMBERT FAMILY REUNION. Numerous Progeny of Pioneer Have a Season of Pleasure.

One hundred and fifteen of the descendants of Charles Lambert, and some invited guells, met last evening at the home of Thomas H. Woodbury, 1858 outh, Fourth East street, to colebrate the eighty-fifth anniversary of Charles Lambert's both. Mr. Lambert came to Salt Lake City in 1849, and was one of the strong forces in the pioneering of Utah and Salt Lake City. The time last evening was spent in a deligniful manner. The earlier diversions consists eq of songs, recitations, wand drills, cake walks and addresses by Frest. Angus M. Cannon. William Blood of Kaysville, Bishop William Thorn. William McLachlan, and Henry Wal-

The program was succeeded by n a very business like way. One of the very enjoyable features was the buseball game between the married and single rembers of the family and the married men won in a score of 4 to 1. Evides the ball game were other sports consisting of foot racing, etc. Then a watermelon feast was held and the way the big fruit faded away would have torned a Georgia camp meeting

Then a meeting was called for the jurpose of organizing the Lambert Geneological socity, and the following members of the family were elected

President, Mary Alice Lambert; first vice president, Charles J. Lambert' sec-ond vice president, George C. Lambert, secreta: and recorder, Alma C. Lambert; assistant, James N. Lambert; treasurer, Thomas G. Lambert.

Ar executive committee was appointed, composed of Charles J. Lambert, George C. Lambert, R. G. Lambert, Mary A. Woodbury, Leonora E. Waddell and Sarah M. Shaw.

A committee was appointed to draft a constitution and by-laws, consisting of George C. Lambert, Louis C. Shaw and Isaac M. Waddell. George C. Lambert read a very inter-esting paper on the life and labors of Charles Lambert. After talking over the objects and alms of the society, the reunion came to a close,

Provo City, Utah, Aug. 29, 1901. The halls of the academy are again re-sounding with the tread of students' feet, and hearty greetings with happy faces make the school seem what it always has seemed-the students' home.

The first devotional of the year was held Wednesday morning. President David John and Hon. John E. Booth were present and expressed their pleasure at meeting such a large body of students and earnest workers. Allred of Spring City, and Miss Soren-son, both old students of the academy, heartily welcomed the students with a few well chosen words. All expressed themselves as being surprised and de lighted with the brilliant opening. The students hope to prove that their well wishes and high anticipations are not

The Academy museum is gradually growing. Several large boxes of curlos have just arrived from the South American expedition. The Kirkham family have also added several boxes American expedition. of curiosities, which are highly appreclated by the school.

The school year is beginning with brillant prospects ahead. Everything seems to point forward to success. Never in the history of the Academy has the first day of the school year witnessed such a large attendance. College hall was filled during devotional exercises. Wednesday morning, and many, many more students are expected daily. President Brimhall said that if the succeeding days bring the usual quota of students, the school will have to be divided for devotional exercises. This is something unusual, yet it is gratifying to the faculty and the

school at large for it forbodes success. Many improvements in the school building have been made during the mmer vacation. Notable among these is the change in the commercial depart-ment. An archway has been placed between room 5 and 6, thus enlarging the commercial study room. A large counter, modeled and fashioned with the utmost care and taste, gives the rooms an air of business and prosper This counter/possesses a double attraction, as it is the work of our woodwork boys, and shows that the academy is training hands as well as

Every student is watching with pride the rapid growth of the training school and symnasium. The building is hear-ing completion, and will no doubt be ready for use before Christmas. Faithful gymnasium workers of last year are still filled with zeal and enthusiasm; much so, that some of them feel that

Eruptions

Dry, moist, scaly tetter, all forms of eczema or salt rheum, pimples and other cutaneous eruptions proceed from humors, either inherited, or acquired through defective

digestion and assimilation. To treat these eruptions with drying medicines is dangerous.

The thing to do is to help the system discharge the humors, and

strengthen it against their return. Hood's Sarsaparilla permanently cured J. G. Hines, Franks, Ill., of eczema, from which he had suffered for some time; and Miss Alvina Wolter, Box 212, Algona, Wis., of pimples on her face and back and chafed skin on her body, by which she had been greatly troubled. There are more testimonials in favor of this great medicine than can be

published. Hood's Sarsaparilla

HOW TO BUILD A BODY.

One of the most important discoveries of late is the application of the right kind of food to rebuild the lost substances of the body, thrown off by he active, nervous work of Americans. Careful investigation by experts in food and diateties, has brought out the fact that albumen, which is contained in various foods, is acted upon by phosphate of potash, not such as obtain drug stores, but such as is found in certain parts of the field grains in ost minute particles, arranged in Nature's laboratory, not man's.

The part of the grains containing phosphate of potash is used in the man-

the broken down gray matter in the brain, solar plexus and nerve centers all over the body, with the result that the individual who refreshes and rebuilds the body with proper material of this sort, obtains a definite result, which he can feel and know of and which is apparent to his friends. A vigorous brain and nervous system is of the greatest importance to any business man or brain worker.
